A VILLAGE MURDER.

CASE BEFORE THE MAGISTRATE.

A Chinese and his mother were charged this afternoon before Mr. Lindsell with the murder of a woman named Yan Sze Ny at Tan-Shiu Hang village. Mr. G. N. Orme prosecuted, and Mr.

Otto Kong Sing defended. Mr. Orme, in his opening statement, said that deceased was a native of Demerara. born in 1874, who married a resident of the same place, who died and left her his property. In 1896 she married a man from Tan Shiu. Hang who had emigrated to Domerars at a time when that village was Chinese territory. - In 1899 the village became part of the New Territories and subject to English law. This second. marriage took place under Christian rites and therefore when in 1904 the parties position arose. The deceased's second husband already had a wife in Tam Shui Hang who was in the position of * kitf-t. and who had two sons. The Christian wife only had the status of a concubine. but her property remained, under British law, under her own disposal. The racties Quarterly Review with a characteristic Tuk Wan, was engaged in making what arrangements he could of the property and first wife and her two sons. Three or four days before the time came for the usual grimage by heads of families for snoestral worship, the first defendant told the adopted son of the decessed that he himself, the head of that family, was ill, and sent him in his stead. On the night of the 18th they all turned in as usual, the first defendant being the only person upstairs. In the morning about 6 o'clock the first defendent came to the police station and reported the murder of his second mother by ten samed robbers who had taken her money and jewellery. His story was that they had effected entrance by the top window of his cubicle, which would cutail a laborious climb. They had gagged, the first defendant with pieces of paper, which would be produced for his Worship to judge of the effective ness of the gag. No one in the house, except the first defendant, seemed to have beard the robbers, and there were no marks of an outrage except in the deceased's ro me nor were the dog aroused. Inquiries were made and two defendents were arrested on au picion. The first had in his possession a go'd snake ring belonging to deceased.

The second defendant, arrested suddenly outside her house, tried to pass two purses. One of them, with four rings inside it, 7728. identified as the property of the deceased. The case was adjourned.

Now that point of law was referred, with your Worship's permission and at the request of the defendant's solicitors, to the law officers of the Crown, and they feel that this launch was not." plying for hire." on the 3rd September in the right sense of the words as used in that section. HONGKONG TIDES.

Master Rosenthal, Mr and Mrs F. W

Wakefield, Mrs Waldmann.

The tide-table given below has been compiled at the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an arzomatic tide-recording machine in the Wa tor Police Essin at Tsim Sha frank during the years 1887-8-8.

The zero of the table corresponds with the zero of the sounding in the Admiralty Chart, which has been found to be 4 feet-3 inches below mean sea fevel

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add feet 4 inches, and on the gauge at Lamon Dock, Aberdeen, add 10 feet 6 inches to the height given in the table.
